

FREQUENTLY ASKED QUESTIONS

How far in advance should I book?

ASAP! Photographers book up to 1.5 years in advance, especially for June and September weddings.

How many hours of photography do I need?

Our coverage usually starts with getting ready and ends within the first 30 minutes of the dance floor opening up. However, this is entirely dependent upon your timeline!

Should we do engagement photos?

Yes! Engagement photos are included in all of our packages. The primary reason engagement photos are important is to get a feel for working with us, being able to ask questions and getting to know each other! Plus, these photos make for great Save the Dates.

How do you capture each moment of the day?

One of the many benefits of having two photographers! We work in tandem to cover the whole day. We ask for your timeline ahead of the wedding, so we also play the part of timekeeper, cheerleader and planner.

How long does it take to receive our photos?

Expect them 4-6 weeks after your wedding. We send a sneak preview soon after the wedding to hold you over until the whole bunch are done.

Do you edit each photo/include black & white, etc?

We edit every single photo you receive by hand (hence the turnaround time!). They are uniquely edited for lighting, cohesiveness, etc. We add many black and white images in the mix, at our discretion, but we can always make any photo black & white!

How many photos will we receive from you?

We do not place a cap on how many photos we deliver to you. On average, we deliver 600-800 final images.
